

“WE CAN’T THANK YOU ENOUGH.”

13 May 2020

Dear Anton and Oil Science,

Thank you for your kindness and generosity. We received your donation of R5 950 to SA Harvest.

These funds are being deployed to increase the volume of excess food we rescue from our suppliers which we then distribute to a network of beneficiary organisations in Johannesburg and Cape Town. Your contribution will result in the equivalent of around 1 190 additional nutritious meals during this critical time.

South Africa produces an abundance of food, yet one third of it, 10 million tons per year, go to waste, while more than 13 million South Africans remain malnourished. Our mission is to reduce hunger and food waste through our unique food rescue model.

Yours and other contributions are helping us rapidly scale up to our goal of delivering 5 million meals per year.

With huge gratitude,

Alan Browde (CEO) and Gidon Novick (Chairman)
